EDUCATION

2023-2027

CAMBODIA ACADEMY DIGITAL TECHNOLOGY(CADT)

Bachelor of Telecommunications and Networking.

Specialization Cybersecurity.

SKILLS

- Network Security
- Vulnerability Assessment
- Network Monitoring
- Network Fundamental
- Troubleshooting
- Operating System
- Python
- AI Security & Governance
- Critical Thinking
- Problem Solving

LANGUAGES

- Khmer : Native
- English : Very Good
- Chinese : Basic

PROFILE

I am a motivated Telecommunication and Networking student with a strong interest in IT systems. I am particularly driven by defensive security, with a focus on protecting systems, and strengthening network resilience. I also possess a foundational knowledge of offensive techniques, enabling me to understand attacker behavior and proactively mitigate vulnerabilities. I am eager to apply my skills in a real-world environment and grow as a cybersecurity through continuous learning and practical experience.

SCHOOL PROJECTS

AI-SEC ENDPOINT PROTECTION — Jan-Mar 2026

Developed an antivirus solution that provides intelligent, real-time endpoint protection for Windows systems, combining AI-driven threat detection with an AI chatbot to enhance user experience and cybersecurity awareness. The system detects threats using both signature-based methods and machine learning, with a four-layer detection approach.

NETWORK SECURE ENTERPRISE — Feb-Mar 2026

Implemented network routing with redundancy, configuring NAT and DHCP, designing network segmentation using a FortiGate Firewall between internal and DMZ network zones to enhance security and control traffic flow effectively.

DDOS PROTECTION AND LOG ANALYST — Feb-Mar 2026

Developed custom detection rules within a SIEM platform to analyze logs from a DDoS protection system, identifying high-volume traffic patterns that may indicate potential DDoS attacks and supporting SOC incident response.

BLOCK-CHAIN AUDIT TRAIL — Nov-Dec 2025

Designed a secure audit logging system using blockchain concepts, where logs are stored in a hash chain to ensure integrity. Built a secure architecture with a gateway node for authorization and redundancy nodes to improve reliability and availability.

COURSES

SISTER OF CODE

Teamwork, Leadership and Project Planning.

AI SECURITY GOVERNANCE

Studied AI risk assessment, security AI systems

SOC ANALYST LEARNING PATH

Log analysis, alert investigation, threat detection using SIEM tools

GRC - GOVERNANCE

Governance, Risk, Compliance

CERTIFICATIONS

- Certified Artificial Intelligence Security & Risk
- AI security & Governance
- SOC Analyst Learning Path
- Incident Response and Digital Forensics

VOLUNTEERING

JLA 2026 TRAINEE

25 Jan-Present

- Organized by JCI Chaktomuk. It is a free leadership development program for young people. Volunteer experience through JCI and social impact projects.

CTEXPO 2025 VOLUNTEER

4-7 Dec 2025

Volunteer for help the event of CTExpo host by Ministry of Commerce.

- I was responsible for the Academy stage. I managed, organized, and conducted workshops for the audience.
- I coordinated the student debate stage.
